User Instruction

8-Zone RGB+CCT Remote Controller

Model No.: FUT089

Features

This product adopt world-wide used 2.4GHz frequency, GFSK control method, with the features of low power consumption, long distance transmitting, strong anti-interference and fast communication rate; can control specified Mi-Light smart light with color, color temperature, saturation and brightness changing.

This remote controller is with 8 zones, each zone can control countless lights.

Parameters

Model No.: FUT089

Voltage: 3V(AAA * 2PCS)

Transmitting Power: 6dBm

Standby Power Consumption: 15uA

Transmission Frequency: 2400-2483.5MHz

Modulation Method: GFSK

Control Distance: 30m

Size: 153mm*47mm*19mm

Link / Unlink

Link:

Turn off the power, then turn on again after 5 seconds, press " | " 3 times within 3 seconds. The LED light blinks 3 times slowly when it is done.

Unlink:

Turn off the power, then turn on again after 5 seconds, press " | " 5 times within 3 seconds. The LED light blinks 10 times swiftly when it is done.

Caution

1. 8-zone remote controller only control specified Mi-Light products; not all Mi-Light series can work on this remote controller.
2. In the using of the remote, if the indicated lamp blinking quickly, pls change the battery in time.
Pls don't use poor quality battery to avoid the leaking of battery liquid to damage the remote controller.
3. This 2.4GHz remote control system is precise electronic product; don't use it in humid, high temperature, dust and high voltage environment; Saving it at indoor, dry and no static electricity environment.
4. Pls don't use the remote controller on the wide-range metal or strong electromagnetic wave area, otherwise, it will badly affect the controlling distance.
